OBJECTIVE

Full Stack Developer with hands-on experience in Python, Django REST Framework, and React, building web applications and secure REST APIs with JWT authentication and role-based access control. I enjoy solving problems, learning new technologies, and turning ideas into practical applications. Eager to start my career in a collaborative environment, contribute to real-world projects, and continue growing as a developer.

EDUCATION

Srinivasa Institute of Engineering and Technology , Cheyyeru B.Tech in Electronics and Communication Engineering [CGPA:7.64]	2021-2025
Narayana Junior College , Kakinada Intermediate, MPC [Percentage:91.09%]	2019-2021
Surya Public School , Draksharamam SSC [CGPA:10]	2018-2019

SKILLS

Languages: Python, JavaScript

Frontend: React.js, HTML5, CSS3, Bootstrap

Backend: Django, Django REST Framework, REST APIs, JWT Authentication

Database: MySQL, SQLite ,PostgreSQL

Tools & Platforms: Git, GitHub, Postman, VS Code

Deployment: Vercel, Render

PROJECTS

AI-Powered Ticket Management System

Tech: React.js, Django REST Framework, Python, Gemini API, JWT, PostgreSQL, Vercel, Render

GitHub: [Repo](#) | **Live:** [Demo](#)

- Developed a full-stack ticket management system with AI-powered features to assist users in managing and resolving support requests efficiently.
- Built secure REST APIs with JWT authentication and role-based access control for managing users, tickets, and administrative workflows.
- Implemented ticket re-analysis functionality to dynamically update category, sentiment, and priority as ticket context changes.
- Created a responsive React dashboard with ticket creation, status tracking, filtering, and management features, integrated with Django REST APIs.

Expense Tracker | Full Stack

Tech: Django REST Framework, JWT, React JS, PostgreSQL (Prod), Vercel, Render

GitHub: [FE](#) | [BE](#) | **Live:** [FE](#) | [BE](#)

- Developed a full-stack expense management application with JWT-based authentication ensuring secure, user-specific data access
- Designed and implemented RESTful APIs for expense CRUD operations with category and date-based filtering, integrated with React frontend
- Built and deployed a responsive React dashboard with protected routes and real-time expense insights using Vercel (frontend) and Render (backend)

INTERNSHIPS & TRAINING

Python Programming Virtual Internship --- Skill Dzure

Dec 2024- Apr 2025

- Gained hands-on experience in Python, data handling, debugging and problem-solving
- Built a Student Performance Tracking System using OOP concepts with SQLite3 database

Python Full Stack Development — 10000 Coders

Aug 2025 - May 2026

- Completed full-stack course covering Django, React and end-to-end web app development
