OBJECTIVE

Full Stack Developer and ECE graduate (2025) with hands-on experience building and deploying web applications using Django REST Framework, React, and JWT-based authentication. Proficient in designing secure REST APIs, implementing role-based access control, and delivering seamless frontend-backend integration. Experienced in deploying applications on Render and Vercel. Eager to contribute to impactful software development within a collaborative engineering team.

EDUCATION

Srinivasa Institute of Engineering and Technology , Cheyyeru B.Tech in Electronics and Communication Engineering [CGPA:7.64]	2021-2025
Narayana Junior College , Kakinada Intermediate, MPC [Percentage:91.09%]	2019-2021
Surya Public School , Draksharamam SSC [CGPA:10]	2018-2019

SKILLS

Languages: Python, JavaScript

Frontend: React JS, HTML5, CSS3, Bootstrap, React Router DOM, Context API

Backend: Django, Django REST Framework, REST API Design, JWT Authentication

Database: MySQL, SQLite ,PostgreSQL

Tools & Platforms: Git, GitHub, Postman, VS Code

Deployment: Vercel, Render

PROJECTS

Expense Tracker | Full Stack

Tech: Django REST Framework, JWT, React JS, SQLite (Dev) / PostgreSQL (Prod), Vercel, Render

GitHub: [FE](#) | [BE](#) | **Live:** [FE](#) | [BE](#)

- Developed a full-stack expense management application with JWT-based authentication ensuring secure, user-specific data access
- Designed and implemented RESTful APIs for expense CRUD operations with category and date-based filtering, integrated with React frontend using Axios
- Built and deployed a responsive React dashboard with protected routes and real-time expense insights using Vercel (frontend) and Render (backend)

Edu Track: Role-Based Academic Management System

Tech: Django, Django Templates, SQLite (Dev) / PostgreSQL (Prod), Render

GitHub: [Link](#) | **Live:** [Link](#)

- Developed a role-based academic management system with Admin, Teacher, and Student dashboards using session-based authentication
- Implemented core modules including attendance tracking, marks management, course assignments, and student profile management
- Designed dynamic dashboards and deployed the application on Render with PostgreSQL, ensuring structured and scalable project setup

INTERSHIPS & TRAINING

Python Programming Virtual Internship --- Skill Dzure

Dec 2024- Apr 2025

- Gained hands-on experience in Python, data handling, debugging and problem-solving
- Built a Student Performance Tracking System using OOP concepts with SQLite3 database

Python Full Stack Development — 10000 Coders

- Completed full-stack course covering Django, React and end-to-end web app development
